📄 SUMMARY

- I am a 21 year old, IT student at Daystar University and Junior Systems Analyst passionate about building software, understanding systems, exploring cybersecurity, and solving real-world problems with technology.
- I consider myself a **curious, adaptable, and driven** individual who enjoys learning, taking on new challenges, and turning ideas into practical solutions.
- I'm looking forward to gaining new experiences, expanding my skills, and contributing meaningfully to the teams and projects I work with.
